

Teradyne Partners with Test Advantage for Refurbished Test Equipment Certification Program

TEMPE, AZ – April 3, 2008 – Teradyne, Inc. (NYSE: TER), a world leader in high efficiency, low-cost test, has launched a new certification program for Teradyne refurbished test equipment and chose Test Advantage of Tempe, Arizona as a partner for the endeavor. Test Advantage brings an unparalleled palette of resources, including a large and continuously refreshed inventory of Teradyne equipment, and an in-house team with 100+ years of Teradyne ATE experience.

“Test Advantage has been the premier source of refurbished, Configured-to-Match™, Teradyne test equipment for over 11 years, and has enhanced its customers’ competitive advantage with reliable, quick-turn, capacity solutions,” commented Test Advantage CEO Fabrice Dechoux. “Test Advantage has received a number of awards for its innovation, execution and growth in this market space, and strives to bring even more value to Teradyne users through this partnership with Teradyne.”

The new equipment certification process applies to Teradyne test systems no longer in production, which includes the J900 and A500 families, Catalyst and Tiger test systems. The refurbishment program enables customers to add capacity with equipment that is consistent with Teradyne quality standards. Teradyne will certify that the test equipment meets a rigorous reconfiguration, test and ship process. Teradyne-Certified refurbished test systems will be installed and warranted by Teradyne.

“Customers use Teradyne’s legacy test equipment long after the initial purchase, and this program provides a reliable source to meet their capacity demands with a solution that Teradyne can confidently stand behind,” said Jim Mahon, general manager, Teradyne Global Customer Services. “The tester certification program creates another way for us to support the needs of our customers while ensuring the quality that customers count on from Teradyne.”

About Test Advantage, Inc.

Founded in 1997, Test Advantage’s mission is to provide innovative, comprehensive, reliable and timely capacity solutions and services to the semiconductor test industry worldwide. The company has established itself as the leading source of refurbished Configured-To-Match™ Teradyne ATE systems and has delivered more than 250 Teradyne testers and system upgrades for the leading semiconductor manufacturers and sub cons. Coupled with its leading refurbishment business is an extensive inventory of systems, parts and options fully supported by its worldwide infrastructure and service personnel. The Tempe, Arizona-based company operates with offices worldwide to support the leading global ATE users. Test Advantage has received numerous business and supplier awards over the past several years, including recent recognition as one of the fastest growing privately held companies by the 2007 Inc. magazine “Inc. 5000.” More information on these awards and other key aspects of the Test Advantage business model can be found at www.testadvantage.com.
