**Tempe-Based Test Advantage Ranks Number 3110 on the 2007 Inc. 5,000
With Three-Year Sales Growth of 103 Percent**

NEW YORK, NY/ TEMPE, AZ. - September 20, 2007 – Inc. ranked Test Advantage number 3,110 on its first-ever Inc. 5,000 list of the fastest-growing private companies in the country. The Inc. 5,000, an extension of *Inc.* magazine’s annual Inc. 500 list, catches many businesses that are too big to grow at the pace required to make the Inc. 500, as well as a host of smaller firms.

Test Advantage Inc. is a leading supplier of both custom-configured Automated Test Equipment (ATE) and innovative software technology tools for semiconductor test. Since it was founded in 1997, Test Advantage has experienced pronounced periods of growth, winning the 2001 Ernst & Young *Entrepreneur of the Year* award in part for rapid growth during the period 1997 - 2000. The *Inc. 5000* award is focused on revenue growth over the last few years, which continues to be strong, driven by Test Advantage's established and growing market share in its hardware and software activities.

“Being ranked amongst the top echelon of fastest growing private companies in an economy as sizeable as the United States is a great achievement for our organization and a great way for us to celebrate 10 years in business,” commented Fabrice Dechoux, CEO of Test Advantage. “We are now firmly established as a premier resource for semiconductor test capacity and technology, having shipped several hundred quality ATE systems and ATE upgrades and more than 2000 software nodes to our customers worldwide during the past decade. We hope the next 10 years are at least as successful as the first 10.”

“The Inc. 5,000 provides the most comprehensive look ever at the most important part of the economy – the entrepreneurial part,” said Inc. 5,000 Project Manager Jim Melloan. “The expansion of the list has

allowed us to tell the stories of larger companies, older companies, and a wealth of companies in industries like Manufacturing and Construction that are underreported in the business media.

About Test Advantage, Inc.

Founded in 1997, Test Advantage® offers hardware and software solutions to the semiconductor industry through its Quality ATE Division and its Software Products Division. Combining 100-plus years of in-house test hardware and software for test expertise, the company delivers a competitive edge to all of its clients. The Quality ATE Division specializes in rebuilt, Configured-to-Match™ ATE systems. The Software Products Division develops and deploys leading-edge, proprietary software to automate manufacturing quality and throughput improvements throughout the manufacturing test process. The Tempe, Arizona-based company operates worldwide, maintaining offices in California, Germany, France and Singapore.
